Billie Rhodes teaches Gimpy, her trick pup, to sing in "Hoop-La," her latest release.

### CITY OFFICIAL SAYS WATER SHORTAGE IS DUE TO WASTAGE

"We have water supply enough for a city of 150,000 and there is more water coming through the pipes down Ogden canyon at the present time than there ever was before in any month of June, July or August, and the cry against the supply is caused by waste among the citizens who will not observe the rules of conservation," said an attaché of the waterworks shop this afternoon.

The Standard was informed by a party who visited the reservoir last night that there was only about one-third of the capacity flow running into the reservoir, but an inquiry at the waterworks shop drew forth a counter statement.

"There are fifteen million gallons pouring into the reservoir every twenty-four hours," said the city employee, "and if this were regulated by meter it would easily supply a city of 150,000, as you can figure for yourself. The city brought in four new wells this spring and every well at Artesian park is flowing to full capacity. There

is no falling off in the flow anywhere."

### Complaints Made To Judge of the Juvenile Court

Numerous complaints are made from time to time to the juvenile authorities concerning acts that are being committed by children in the city, and demanding that something be done immediately, according to a statement of Judge Dan Sullivan. These complaints are usually so lacking in information that the officers cannot take action.

Judge Sullivan suggests that if citizens desire to make the juvenile court more effective they will be careful to ascertain the names of the children they are complaining about.

"A few days ago a case was telephoned to the offices," said Judge Sullivan, "and the only information we could glean was that the juvenile officials should do something immediately because a boy was cutting his name on the sidewalk on a certain street. The informant was asked if he had remonstrated with the youth and informed him that he was violating the law. He said that he was riding in an automobile at the time and did not desire to get out, so he just went on until it was convenient to telephone."

"This is one of the cases where it

was the duty of the citizen to explain to the lad that his act was unlawful. Many times were called on such wild goose chases as a report like this brings on. When our officers get to the scene, the boy has gone and we have no means of knowing where to look for him. It is the duty of any citizen in a case like that to first learn why the child is doing a wrongful act, whether it is because he does not realize the fact that it is an offense or because he has not learned to respect the law. Prevention is the best remedy."

### Departs After an Investigation of Result on Lake

J. H. Gilmour, who has been in Ogden and vicinity for the past ten days making an investigation of the feasibility of a hotel project at Promontory Point, will depart for San Francisco tonight, having completed his survey. He will make his report direct to President Paul Shoup of the Southern Pacific.

While Mr. Gilmour has given out no statement concerning his estimate of the project, it is believed that he has not been unfavorably impressed.

The matter was first brought to the attention of President Shoup by the Merchants of Ogden some weeks ago,

organization seemed so good that Mr. Gilmour, who is well versed in resort hotel matters, was sent here to investigate the possibilities. It seems probable that the hotel will be built on the lake.

### Youngsters Are Warned Not to Shoot Firecrackers

It is reported that small boys are making purchases of firecrackers and other material for the celebration of the Fourth of July, some of them beginning the preliminary noise already. The juvenile officers sent out a warning that the possession or use of any such material comes under their jurisdiction and that they will prosecute boys found with them.

This warning is considered necessary from a two-fold standpoint—first, on account of the danger to others and, secondly, on account of the extremely dry weather and the great danger of starting fires in the city or in the brush or grass outside of the city.

The "same Fourth" will be observed in Ogden this year, it is announced, and all boys who want to make a noise will be obliged to "just open up and yell," or else get some other noise-making machinery, says Probation Officer Shroves.

### LARGE BRUSH FIRE REPORTED TO HAVE STARTED

A report was received at the local offices of the forest service this morning from the headquarters of the Idaho national forest that a large grass and underbrush fire is burning near the border of the forest and in some places that it had eaten itself into the forest.

A large force of men is being utilized both by the forest service and the state of Idaho to keep down the fire. District Forester L. F. Kneipp stated this morning that the fire would cost the service thousands of dollars.

### Teamsters Come To an Agreement With Coal Company

The Teamsters' union business agent, Roy Woodard, reported last evening that the Asael Farr Coal company

had agreed to employ only union men hereafter. This firm was among those whose men went on strike some time ago when a general strike was called in the city against all firms that would not meet the new demands for a \$4 a day scale and other concessions.

An agreement was reached yesterday with this firm, and it is reported that nearly all of the firms are now in harmony with the union and employing only union men.

### William Spry Is Before the Public Lands Committee

William Spry of Salt Lake City, urging favorable action on Secretary Lane's proposed legislation to provide farms for soldiers and sailors, before the house public lands committee in Washington today, declared that every state would receive benefits from the legislation and urged early action.

NAVAL AVIATOR FUND.  
WASHINGTON, June 28.—Funds for naval aviation for 1920 were fixed today at \$25,000,000 under a compromise agreement reached the house and senate conferees, Senator Daniels had asked for \$35,000,000.

### COURT ADJOURNS AS NEWS OF PEACE IS RECEIVED

Judge Agce adjourned district court this morning in honor of signing of the peace treaty and the following record of the event was made:

"A report having been received that the treaty of peace between this country and associated countries with the German government has been signed and that the German government has been compelled to acknowledge its responsibility for the most gigantic, cruel and devastating war known in history, and also the complete defeat of the attempt of the former imperial German government to dominate and control the world:

"In recognition of the transcendent importance of this act, to humanity everywhere, and with a profound wish that the treaty signed including the provisions for a league of nations, will make impossible the recurrence of the horrors of this world war.

"It is ordered that Department 1 of this court, stand adjourned from 12 o'clock noon, of this 28th day of June, 1919, until 9:45 a. m. June 30, 1919."
